

Kaskazi House Kizingoni Beach Lamu Island Kenya

The house consists of four towers, around an elevated, 16m infinity pool. Shady makuti-covered terraces run between the four areas, providing privacy for the pool area, while allowing the breeze to blow through and gently sway the hanging beds. Entertainment areas abound, with a welcoming bar and baraza seating area by the entrance, a large lower dining area, a rooftop dining/recreation area and plenty of room around the pool for sun worshipping and dining under the stars.

Accommodation & Room Types

The two front towers house four spacious bedrooms, while the back two towers house the communal areas, kitchen and the sumptuous master bedroom, with its star- gazing bathtub and outside shower.

Each bedroom has a private terrace and its own special bathroom. Nothing has been spared to ensure that Kaskazi House is as comfortable, functional and luxurious as possible. www.crocodil eracers.com
