

Manfriday's Mida Cove Kenya

On a pristine stretch of Kenya's Indian ocean beachfront, Manfriday's Mida Cove offers three individually designed Beach Villas. Located just off Mida Creek -a world bio-heritage site- a Marine National Park and a bird watcher's paradise, Manfriday's is something new and very different in luxury beach destinations. Something you'll remember.

You don't just rent a Room... you get the whole house. At Manfriday's, we know that when it comes time to get away, one-size doesn't fit all. Our mission is to make your vacation as unique as you are, by giving you control over your experience.

Manfriday's combines all the convenience of a hotel - from full-board food & bar service to house-keeping and recreation - with the personal intimacy of private villas.

So what does that mean for your vacation at Manfriday's?

Food & Beverage: done differently (see "Dining") To start with, our dining style is all about you -from menu selection to preparation, you're the boss, and it happens for you, around you and to your exact specification. Our chefs are there to be a central part of the experience, to talk and listen to you, to advise, inform, and entertain you. At Manfriday's Mida Cove, we make sure food is fun!

Your chef prepares your choices right in front of you, whenever you choose to dine: in private or in company, by the pool or anywhere else. It's your choice at every meal, at the time you choose.

It's also your choice what you want to eat, and it will be prepared to your exact taste and preference.

Why? Because at Manfriday's we believe food should be fun.

Boat-Bar - drinks whenever you are ready!

We promise not to disappoint with our selection of cocktails, wines and spirits.

And we'll make you an offer - you show us a drink we didn't know about, and we'll make it for you, on the house!

Of course, we'll serve non-alcoholic drinks too, from fruit juices made from the freshest tropical ingredients, to virgin cocktails, soda's and all manner of child-pleasers.

So, go ahead and say Cheers!
