

Leopard Cliff Mansion Hotel (Rolf's Place) Nairobi Kenya is situated on the South east border of Nairobi National Park only 25 minutes from the Nairobi centre. Built like a medieval fortress on the edge of a cliff it overlooks. Access over the gorge is provided by an adventures suspension bridge which reminds one of an Indian Jones movie The park, which can be easily accessed is a few hundred meters away through the Maasai lodge gate.

On a clear day one can appreciate a panoramic view of Mount Kilimanjaro, Mount Kenya and the adjacent Ngong hills (the scenic setting of Karen Blixen Estate). The neighboring game parks afford one the unique opportunity to view wild animals across the gorge. The roaring of lions and leopards often pierce stillness of the night.
